

DETAIL #:
0620V-1340
System:
AVM System 620V

Control Joint Aligns with Double Tee

AVM System 620V - Vehicular Traffic Coating

Notes:

1. Epoxy primer may be required to achieve proper adhesion depending on the substrate
2. Follow Installation Instructions for 620 System
3. Please consult structural engineer on movement expected. If expansion and contraction greater than 25% is expected, an expansion joint system is recommended.
4. Refer to AVM Website for AVM 620 Vehicular Traffic Coating Assembly Options.
